By Trina Angelone

Systemicreform. Paperback. Book Condition: New. Paperback. 140 pages. Innovation and transformation are risky, even terrifying, concepts, but not more terrifying than what happens to the 56 million students in the U. S. whose futures depend on us if we dont do something today. If we believe we cannot fail the next generation, then the systemic reform of American public education is a national imperative!In her book, Trina shares why. . Maintaining failing structures both ideological and physical and tinkering with existing systems wont generate the results that are necessary. It is not enough to create new models, no matter how interesting, engaging, or philosophically on track they may be. The problem with incorporating the great new models of learning into our educational system is exactly that: we are incorporating them into our educational system. Technology is a tool, not the answer to improving the education system, and it means nothing without the right people, processes, training and support behind the implementation. There is an entire subculture of online activity, networking, and authentic experiences that is creating another whole dimension for digital learners; and understanding how these learners rely on their technology is a necessary component to educating them. The new...
