LAP LAMBERT Academic Publishing. Paperback. Book Condition: New. Paperback. 52 pages. Dimensions: 8.7in. x 5.9in. x 0.1in. The major question that this book analyzes is, Why hasn't India marked its presence in the Global Food market given its agrarian economy? The book starts by giving a brief overview of the Indian agriculture sector post 1991. It further talks about the recent issues related to food safety and standards and its effect on Indian exports of agricultural commodities. Given the recent awareness about health and growing concern about good quality food, the international standards set are high which are difficult to match by developing countries, like India. Nevertheless, some developed countries have set the standards higher than the international standards. In this changing global landscape, India established FSSAI, Food Safety and Standards Authority of India with the sole aim to make Indian exports competitive in the world market. This book analyzes the effect of the Food Safety and Standards Act on three major commodities, Wheat, Groundnut, and Cotton, for the period 2002-2012. Further, it mentions the challenges India is facing and will have to face in the future and also gives policy recommendations. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
